---

The quality mark was awarded on the basis that the company fulfills the requirements of RAL-GZ 716, part 1, for profile systems with conventional glazing.

Awarding criteria: A **system description** as well as several **test certificates** of sample windows are the basis for this certification. A brief description of the profile system is summarized in a "RAL Systempass".

Periodical audits by a neutral inspection body ensure that system description as well as system tests are up to date.

The validity of this certificate can be verified
